

Remote Access to Academic Computer Labs

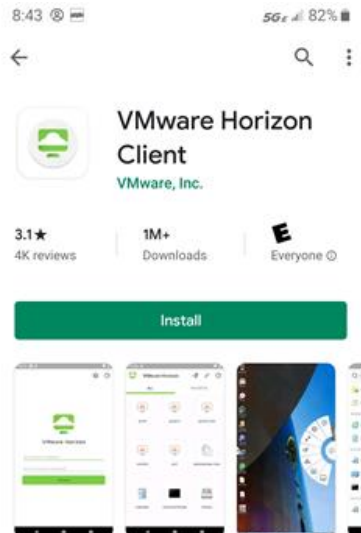

Android Instructions

Note that there is a two-hour time limit on each session. You will be disconnected without warning at the end of the session. You have 15 minutes after a disconnect to reconnect to avoid losing unsaved work.

The Omnissa Horizon Client can be installed on your Android device and used to access the computer labs online. If you cannot install the client on your Android device you can use a browser version by going to <https://view.cec.sc.edu/> and choosing “Omnissa Horizon Web Client.”

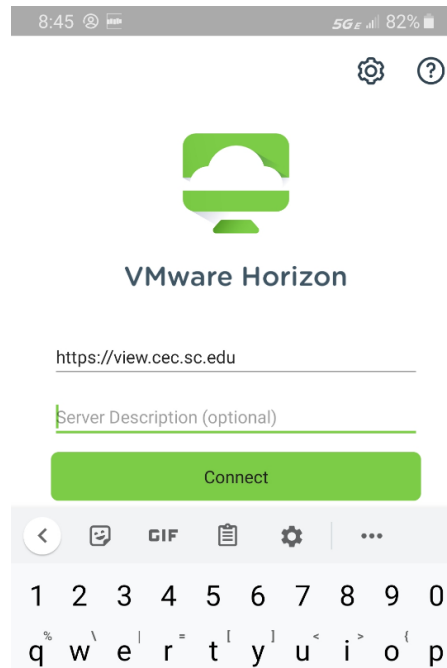

Installing the Omnissa Horizon Client on Android

1. Open the **Google Play Store** and search for Omnissa **Horizon Client**.

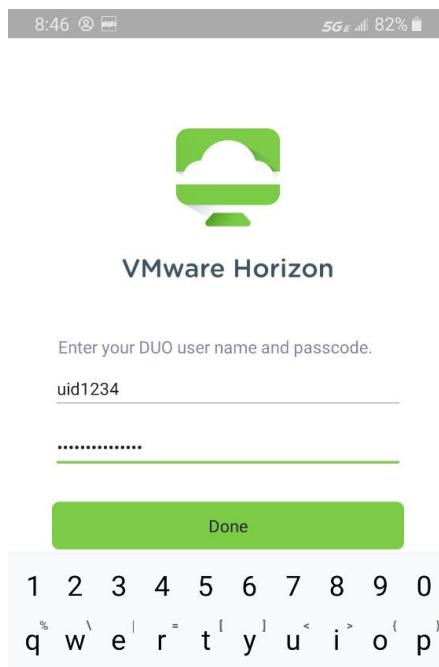

2. Tap **Install**.
3. Once the app has downloaded and installed, tap **Open**, or tap on the icon on your home screen.
4. Tap **Add Server**.

5. In the **Server Address** field type: <https://view.cec.sc.edu> and tap **Connect**.

The screenshot shows the VMware Horizon mobile app interface. At the top, the status bar displays the time 8:45, signal strength, 5G network, and 82% battery. Below the status bar are icons for settings and help. The main screen features the VMware Horizon logo, a text field containing the URL <https://view.cec.sc.edu>, and a label "Server Description (optional)". A green "Connect" button is positioned below the text fields. At the bottom, a keyboard is visible with a navigation bar containing back, emoji, GIF, clipboard, settings, and more options.

6. Login with your USC credentials and approve the Duo authentication push on your phone or other Duo device.

The screenshot shows the VMware Horizon mobile app interface during the login process. The status bar at the top displays the time 8:46, signal strength, 5G network, and 82% battery. The main screen features the VMware Horizon logo, a prompt "Enter your DUO user name and passcode.", and a text field containing the username "uid1234". Below the username field is a masked password field represented by a series of dots. A green "Done" button is positioned below the password field. At the bottom, a keyboard is visible with a navigation bar containing back, emoji, GIF, clipboard, settings, and more options.

9. To log out of View, click the little plug icon in the top menu of the view client and tap **LOG OUT**.
