

Remote Access to Academic Computer Labs Windows Instructions

Note that there is a two-hour time limit on each session. You will be disconnected without warning at the end of the session. You have 15 minutes after a disconnect to reconnect to avoid losing unsaved work.

The Omnissa Horizon Client can be installed on your computer and used to access the computer labs online. If you cannot install the client on your computer, you can use a browser version by going to <https://view.cec.sc.edu/> and choosing "Omnissa Horizon Web Client."

Installing the Omnissa Horizon Client on Windows

1. Go to view.cec.sc.edu and click "Install Omnissa Horizon Client" and download the Windows version.
2. Double click the installer file to begin installation.
3. Follow the prompts to install/reinstall Horizon Client.
4. Once the installation is completed, open the Start Menu and click on Omnissa Horizon Client.

5. The first time the Horizon Client opens, you will be asked for a Connection server. Click on **Add Server**.

6. Type in the **Connection Server** name: https://view.cec.sc.edu and click Connect.

7. Login with your USC credentials and approve the Duo authentication push on your phone or other Duo device.

8. Once you have logged in, you will be presented with several pools of lab computers. The general lab computer pool is called **CEC Labs**. Double click the appropriate lab pool and you will be logged into the next available lab computer.

9. To log out at the end of your session, click the Options menu in the menu bar at the top and always choose **Disconnect and Log Off**.
